

POWERED HAND TRUCK – PHT 140

Materials Handling Lift & Load Solution

The MAKINEX Powered Hand Truck PHT-140 is a universal materials handling solution that enables one person operation to safely lift and load small equipment or bulky goods weighing up to 140kg. It provides a quick and easy alternative to using a forklift or tailgate loader for small loads.

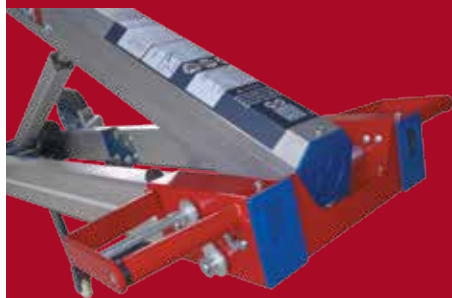

The MAKINEX PHT-140 has many applications and can be used in workshops, warehouses, depots, distribution companies and hire and rental yards.

The MAKINEX PHT-140 features powered lift via a 12V 25 Amp linear actuator. It is easy to operate – the lifting arm reach is controlled by the user lifting or lowering the handles and arm height is controlled via a simple thumb switch.

The unique design enables one person operation to lift and load directly into vehicles (trucks, vans, utes and cars) or to place equipment and small loads on bench tops. It eliminates awkward and dangerous one or two person lifts and reduces the incidence of back and other injuries caused by heavy lifting.

FEATURES & BENEFITS

- 140kg lift capacity
- 1.9m max lift height with hook attachment
- 1.55m max lift height with fork attachment
- Durable and lightweight aluminium construction
- Long lift cycles and 18V 4AH rechargeable power tool battery
- Easy one-person operation
- Reduces back and other lifting injuries
- Folds flat for easy transport and storage
- 12 Month Warranty

SPECIFICATIONS

Lift Capacity	Up to 140kg
Linear Actuator	12V 25Amp
Hook Height Range	Ground to 1.9m
Weight of Machine	Total 40kg
Battery	18V 4AH rechargeable power tool battery
Battery Capacity	40-50 Operations
Weather Resistance	Rain tolerant, store indoors
Charge Method	Battery Charger for the 18V power tool battery
Speed	Average lift 15 seconds

ATTACHMENTS

FORK – for lifting, moving and loading small pallets and skids.

- Easy to operate – fork tilt is controlled via an auxiliary thumb switch
- Made from powder-coated mild steel
- 140kg lift capacity
- Weight 12kg
- Sold separately

HOOK – for lifting, moving and loading small equipment and machinery fitted with a lifting eye, e.g. water pumps, generators, air compressors, plate compactors etc.

- Easy to operate – self engaging hook with 360° rotation
- Made from powder-coated mild steel
- 140kg lift capacity
- Weight 1.6kg
